

Commercial Performance Coatings

2K BINDER

EPOXY TOPCOAT

Commercial Performance Coatings Epoxy Topcoat is a two-component epoxy polyamide cured protective coating which provides a high gloss, easily maintained surface for aggressive environments and areas of high physical abuse.

In addition to its ease of application, Epoxy Topcoat provides outstanding adhesion to most surfaces, along with excellent flexibility and high resistance to most chemicals, making it perfect for use on interior concrete, factory, garage, workshop and sales shop floors.

What's more, by utilising the SELEMIX® universal tinter system, Commercial Performance Coatings Epoxy Topcoat is available in excess of 10,000 different colours, including the AS2700 and RAL colour ranges.
