

## 186 SUPERSTRIP PAINT REMOVER

### PRODUCT DESCRIPTION

A specially formulated, non caustic, thick and concentrated paint remover.

It is suitable for removing all Automotive and Industrial paint finishes from most non-absorbent surfaces.

### PRODUCT

SuperStrip Paint Remover

186-9102

### APPLICATION

Lightly score the paintwork to allow penetration.

Apply a thick coating of stripper by brush then completely cover with plastic and allow sufficient time for the paint surface to swell and wrinkle.

Remove wrinkled paint and excess stripper with a scraper.

Neutralise all stripped areas with plenty of clean water and AA-6788 Protec Auto Plastics Pre-clean RFU

Wash the entire surface with AA-6822 Protec Wax and Grease remover and dry thoroughly before proceeding.

### POINTS TO NOTE

Correct safety equipment including goggles, gloves and an apron should be worn when handling this product.

Avoid contact with skin

Do not inhale fumes. Use in a well ventilated area.

Remove residue and contaminated waste to an industrial tip.

### HEALTH AND SAFETY

Please refer to Safety Data Sheets (SDS) for full Health and Safety details, as well as product can labels.

This product is for professional use only.  
The information given in this sheet is for guidance only. Any person using the product without first making further inquiries as to the suitability of the product for the intended purpose does so at his or her own risk and we can accept no liability for the performance of the product or for any loss or damage (other than death or personal injury resulting from our negligence) arising out of such use. The information contained in this sheet is liable to modification from time to time in the light of experience and our policy of continuous product development.  
Drying times quoted are average times at 25°C/77°F. Film thickness, humidity and shop temperature can all affect drying times.
